

# MEMORY JOGGERS

# 1.05

TimeCue

## DESCRIPTION

These devices provide a verbal reminder at set times of the day.

A message is recorded onto the device and a clock timer is set.

At the prescribed time of day the message is played back.

A single use device (**TimeCue**) or multi message devices (**VoiceCue**) are available.

VoiceCue

## APPLICATION

People with cognitive impairment often experience memory problems with an increased likelihood of forgetting to attend appointments.

These devices provide a reminder; e.g. "Your medical appointment begins in five minutes," or "it's three o'clock, time for your tablet".

Disclaimer: This information is a guide only.

Alzheimer's WA Ltd does not endorse any of the manufacturers, suppliers or the use of any of the products featured. It is recommended that an assessment be sought from the Independent Living Centre or an Aged Care Assessment Team prior to purchasing Assistive Technology.
