The door organiser aims to assist or prompt people to locate all regular used items required when leaving the home in one easy to find location.

Pockets or baskets are to have a direct line of sight within the home so when leaving the home, keys, wallet purse, glasses or phone etc can be taken with them.

Getting into the habit of placing keys etc in the same place can reduce frustration of losing items. Signage or exit reminders can also be useful for those who require further prompting.

**Purchasing information:**
Widely available from various department stores, IKEA, Kmart, Bunnings, and online from Ebay, Amazon etc Prices start at $10
