

**Portable transmitter**

**Range up to 50 metres**

## DESCRIPTION

The floor sensor mat is plugged into a wireless transmitter. When a person stands on the mat, a portable wireless receiver carried by the carer will sound an alert.

Several types available, please contact Technical Solutions for further information and/or a quote:

Tel: (03) **9737 9000**

## APPLICATIONS

Ideal for home care of people with poor mobility, who are at risk of falling when getting out of bed during the day or night.

Or, as an alert to let a carer know the person with dementia is getting out of bed and is at risk of leaving the house during the night.
