

CAROUSEL AUTOMATIC MEDICATION DISPENSER

1.10

DESCRIPTION

This medication carousel has the ability to store 28 doses of medication.

The carousel automatically moves around when tablets are due and dispenses the correct dose.

The device is programmed to send out an audible and visual alert when tablets are due.

The alarm is deactivated when the device is turned upside down and the medication is retrieved.

APPLICATIONS

These devices are suitable for people with mild cognitive impairment or those who have tendency to forget when medications are due.
