Alzheimer's WA Ltd does not endorse any of the manufacturers, suppliers or the use of any of the products featured. It is recommended that an assessment be sought from the Independent Living Centre or an Aged Care Assessment Team prior to purchasing Assistive Technology.

Revised 24/09/2020

DESCRIPTION

Motion sensor with remote alarm will notify you when your loved one is on the move.

Place detector and position alarm up to 100 metres away.

Battery operated; The motion sensor may be placed almost anywhere to achieve optimal detection coverage.

APPLICATIONS

The alarm will alert a caregiver via a pocket-sized pager (eliminates in-room noise) when a person with dementia is moving around.

Ideal for bedrooms when there is an increased risk of falls.
