

TRUE DOORS

Helping seniors feel at home

6.09

DESCRIPTION

True doors replace a clinical and impersonal atmosphere with a friendlier and home like environment.

Individual decals can stimulate reminiscence, support way finding and personalize the living environment.

It is less likely that people will walk into the wrong room, and a greater chance others will knock before they enter.

True doors help ensure a person centred care environment where residents' identities are central.

True doors are made to measure decals using pictures of real doors that last years, persons previous front door can be re-produced

Available for **flat door surfaces** only

Printed on high quality vinyl covered with a protective nonflammable washable laminate
