Revised 11/09/2020

## DESCRIPTION

This digital talking clock with time, temperature, date and alarm. Large print display with blue backlight. It also has a volume control.

Talking watches: There are many different styles available. Set alarms to prompt medication times and hourly reports.

## APPLICATIONS

Talking clocks are suited to people with varying degrees of cognitive impairment and vision impairment.

Asking repetitive questions re: the time is common for people living with this condition, and the use of Talking Clocks may assist with this problem.
