**DESCRIPTION**

**Blue Phone** is a telephone as well as a based emergency call system that operates over analogue or GSM phone telephone connection.

The system consists of a waterproof pendant that is worn on a lanyard or wrist strap, and a speakerphone.

The speakerphone features volume control, hearing aid compatibility; large buttons including speed-dial picture buttons, battery backup, and talking calendar/clock function with date, day and time annunciation.

Can be set up as non-monitored or monitored, and other alarms can be linked to the system such as a smoke detector or PIR (activity) sensors.

**The Erica Help Unit:** A monitored emergency call system that operates over an analogue, GSM or VOIP telephone connection.

The Waterproof pendant with optional fall detector technology can be worn on a lanyard, brooch attachment or wrist strap.

The receiver unit features a speakerphone, "Help" and "Cancel" buttons, as well as optional "Are You OK?" button for user to press daily.
