

# Vigil-Aide Electric / Gas Stove Isolation System

# 4.27

## DESCRIPTION

- Maintains independence whilst helping to minimise risk
- Applicable to gas and electric stoves
- Turns gas or electricity supply to stove on after switch is activated, and turns off after a period of approximately 20 mins
- Additional cooking time can be activated
- Units can be supplied with a key-operated bypass switch to “lock out” the stove when caregiver is not present in the home
- Units must be installed by licensed electrician or gas fitter

Disclaimer: This information is a guide only.

Alzheimer's WA Ltd does not endorse any of the manufacturers, suppliers or the use of any of the products featured. It is recommended that an assessment be sought from the Independent Living Centre or an Aged Care Assessment Team prior to purchasing Assistive Technology.

Revised 24/09/2020
