**Alzheimer's WA
does not charge an
Administration Fee**

*only payable if sufficient funds remain in package

Overnight and 24 hour services

**The fixed rate for overnight and 24 hour services includes an allowance for up to two hours of active support between 9.00pm and 7.00am. Where more than two hours of active support are required during this period the applicable individual support and personal care or dementia specialist household hourly rate will apply in addition to the fixed rate.

Support worker travel to an individual service

We endeavour to place our support workers within 20kms of services. Where we do not have a support worker within 20kms of the service, additional costs of \$1.00 per km travelled above the 20km limit will be included in the individual agreement.

Outings during an individual service

If a support worker takes a client out in their vehicle during an individual support service, a cost will be incurred of \$1.00 per km travelled. As part of the individual agreement, a client may put restrictions on the number of kilometres to be travelled within a service.

Transport for group services

There are no additional transport costs charged for outings during a group service. Transport costs apply for the pickup and drop off of clients accessing our dementia specialist households or a group venue, where available. We are only able to provide transport to clients located within a 10km radius of the centre/venue. Access to transport for group services is dependent on availability.

Cancellations

Where less than 24 hours' notice is received to cancel a service the service will be charged as if it had gone ahead in full. Where more than 24 hours' notice is provided there is no charge applicable.

Please note fees are subject to change however advance notice of the change will be provided in writing.
